Subject: Letter of Recommendation for Eduardo Maia Romao – VR & Visualization Expert

I'm Marco Capolicchio, Head of Modelling Surface and Visualization at Pininfarina S.p.A.

To whom it may concern,

I am writing this letter to formally recommend Eduardo Maia Romao, who served as a 3D Visualization Specialist at our company, Pininfarina S.p.A, from November 2021 to June 2024.

During their tenure, Eduardo Maia Romao demonstrated an exceptional ability to bridge the gap between technical rigor and artistic vision. They were primarily responsible for translating complex concepts into high-impact visual models, managing the entire production pipeline with full autonomy.

I would specifically like to highlight the following core competencies:

Technical Proficiency: Eduardo Maia Romao showed mastery of industry-standard tools such as Unreal Engine, Unity, VRed consistently ensuring high-performance output even within demanding real-time VR environments.

User Experience (UX/UI): Beyond aesthetic rendering, they demonstrated a deep understanding of interaction dynamics in virtual spaces, optimizing visual ergonomics and overall usability for the end-user.

Technical Problem Solving: They successfully navigated challenges related to asset optimization (polygon count etc...) and frame rate stability—critical factors in preventing motion sickness and delivering a seamless immersive experience.

A standout example of their contribution was to contribute and to increase the methodology which received enthusiastic feedback from our clients for its realism and fluidity.

Eduardo Maia Romao left the company on excellent terms to pursue new professional growth opportunities. We consider them a high-Caliber professional and are confident they will bring innovation and expertise to any organization they join.

Please feel free to contact me if you require any further information or specific details regarding their performance.

Best regards,

PININFARINA S.p.A.
